- **Inhalation:** Inhalation of vapours may cause respiratory irritation.
- **Skin contact:** Can cause skin irritation.
- **Eye contact:** Can cause eye irritation.
- **Ingestion:** It is not likely that this product will be swallowed if used as intended. It may cause nausea and vomiting if swallowed.

Effects of long-term (chronic) exposure: None known.

Other important hazards: None
SECTION 4 - FIRST AID MEASURES

Inhalation: If someone feels ill after inhaling vapours, remove them to fresh air. Call a physician if symptoms do not go away quickly.

Skin contact: If product gets on skin, wash off with large amounts of water.

Eye contact: If liquid is splashed in eyes, immediately flush eyes with lots of water for 15 minutes, including under the eyelids. Call a physician right away.

Ingestion: If swallowed, call a physician or Poison Control Centre. DO NOT induce vomiting unless directed to do so by a physician. If vomiting does occur, position victim so that fluid does not drain back into lungs.

Special fire-fighting procedures/equipment: Not applicable.

Hazardous combustion products: Not applicable.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions: Wear appropriate protective equipment (see Section 8).

Environmental precautions: If in doubt about proper disposal, contact local, state or federal EPA (in USA) or municipal or provincial environmental authorities (in Canada).

Spill response/Cleanup: Wear appropriate protective equipment to collect spillage with an absorbent material. Flush area with water until foaming ceases, using caution as area may be slippery. Prevent discharge of concentrate into waterways. Obtain prior approval before discharge into sewer treatment systems. Disposal must be in accordance with federal, state or provincial, and local regulations.

Prohibited materials: None.

SECTION 7 - HANDLING AND STORAGE

Safe handling procedures: Product is for industrial and municipal fire department use only. Consult product literature for appropriate handling during fires.

Storage requirements: Store at 25°F - 120°F (-4°C - 49°C).

Incompatible materials: As with all aqueous solutions, ALCOSEAL should not be put in contact with any materials which react violently with water.

Special packaging materials: Use original container or store in stainless steel, fibreglass or bitumen-lined tanks.
SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Ventilation and engineering controls: Provide adequate levels of ventilation to prevent a build-up of vapours from the product.

Respiratory protection: Not normally required under normal conditions of use. If vapours reach irritating levels, wear a NIOSH-approved respirator equipped with organic vapour cartridges.

Protective gloves: Wear impervious gloves of an approved material, for example Neoprene.
Eye protection: Wear safety glasses, chemical goggles or a face shield of an approved type.

Other protective equipment: Body-covering clothing is recommended.
Permissible exposure levels: See Section 2, Hazardous Ingredients.
